Application # 10/054,202
Dear United States Patent Office Employee

7/30/02

I have sent this patent to you people three times now and each time I have complied with your wishes. I hope at this third attempt I am able to satisfy your patent desires. If Thomas Edison had to go through this much hassle every time he applied for a patent we might never have had the light bulb. I hope that you will find every thing in order and send me my patent number. Thank you and have a nice day.

Sincerely

Marc h Johnson

P.S. I seem to have lost the confirmation #
the last one was 7990.

I double spaced specs and sent new pic.
I think thats all you need. (I Hope)
